HARDY Trees and Plants For All Purposes

The New England Nurseries
Bedford, Massachusetts

Tel. Lexington 0274

(Where your father purchased)

Members Massachusetts Nurserymen's Assoc.

Members New England Nurserymen's Assoc.

Members American Nurserymen's Assoc.

LOCATION

Our office and nursery are located on the Bedford-Concord Road, one mile from Bedford Center and three and one-half miles from Concord. To reach us from Boston, which is 15 miles distant, drive through Arlington, thence through Lexington to Bedford. From Lowell which is 12 miles distant, drive through Billerica to Bedford. Motor Busses from Arlington Heights or Concord, via Bedford, pass the nursery at frequent intervals.

Purchasers should state plainly the mode of conveyance by which stock should be forwarded. Otherwise we exercise our judgment. For delivery by motor truck, a cartage charge will be made in accordance with size of load and distance to be hauled. All prices given, are for the stock at the nursery, and freight or express charges are payable by customer.

CONDITIONS OF SALE

Terms are cash, excepting by special agreement.

A Discount of 5% is allowed for cash with order.

We give no warranty, expressed or implied, as to quality, description or productiveness, of any nursery stock that we sell. The only guarantee we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made within ten days after receipt of order. Any stock ordered from this list, found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.

Time for Planting. All hardy trees and plants of any description can be safely transplanted in the Spring as soon as frost leaves the ground, and usually as late as about June 1st. Also during the period beginning September 15th and continuing until the ground becomes frozen. Evergreen trees and shrubs can further be safely handled during August.

We respectfully invite correspondence pertaining to problems of interest to planters.

The sizes of trees and shrubs named in the following pages are such as are usually preferred by planters. If desired we can generally supply larger or smaller sizes and will quote prices on application.

Visitors are always cordially welcome, but we ask the indulgence of parties calling during our busy Spring and Fall months, when it is quite impossible for us to devote as much time as we should wish in showing our Nurseries. The most courteous treatment possible, however, will always be given to those who favor us by calling.

Gardeners and Superintendents. Parties desiring skillful gardeners or men to manage estates will find it advantageous to correspond with us.

GOLD MEDAL

EVERGREEN TREES

ABBREVIATIONS

The following abbreviations indicate the comparative heights of the various sorts as attained by specimens in group-plantings where proper pruning or shearing is given, rather than the maximum growth formed in individual specimens planted singly.

V. D. Very dwarf. M. Medium.

D. Dwarf. T. Tall.

Each Per 10

Abies balsamea (Balsam Fir) T.

A rapid growing tree, with dark green sweet scented foliage. Prefers a somewhat moist soil. Unless regularly pruned, it is inclined to become open and to lose its lower branches early.

4 to 5 ft.	7.50
5 to 6 ft.	8.50
6 to 7 ft.	9.50

" **concolor** (Blue Fir) T.

A beautiful tree if well grown. Foliage large, and in some specimens silver-blue in color. Good for lawn planting.

18 in.	2.50
--------	------

" **fraseri** (Fraser's Fir or Silvery Balsam) T.

A very handsome tree. Foliage dark green above and silvery underneath.

18 to 24 in.	2.50
2 to 3 ft.	4.00

Chamaecyparis filifera (Thread Retinospora) M.

Foliage dark green. Branches slender, string-like and drooping.

18 to 24 in.	2.50
--------------	------

" **pisifera** (Pea fruited Cypress) M.

A very handsome tree when pruned to become or remain dense. Foliage a good green.

1½ to 2 ft.	2.50
2½ to 3 ft.	4.00

" **Pisifera aurea** (Golden Pea fruited Cypress) M.

In growth like the preceding, but with bright yellow foliage.

1½ to 2 ft.	2.50
2½ to 3 ft.	4.00

" **Plumosa** (Plume Cypress)

Dense, dark green and feathery foliage. A very beautiful evergreen if sheared occasionally.

18 to 24 in.	2.50
--------------	------

NEW ENGLAND NURSERIES CO.

		Each	Per 10
<i>Chamaecyparis</i>			
" <i>Plumosa aurea</i> (Golden Plume Cypress)	A form of above with brilliantly golden foliage.		
	1½ to 2 ft.	2.50	
" <i>sphaeroïdes</i> (White Cedar) M.	A valuable native evergreen with light green or bluish green foliage. Becomes very dense if slightly sheared. Does not discolor in winter. Excellent for hedges.		
	2 to 3 ft.	2.00	18.00
	(Per 100, \$150.00)		
	3 to 4 ft.	3.00	27.00
<i>Juniperus communis</i> (Common spreading Juniper) D.	A native evergreen. Usually quite prostrate, and good for covering banks or rocks. Foliage light and glaucous.		
	18 in.	1.50	14.00
	2 to 2½ ft. across	2.50	

Irish Juniper

Savin Juniper

Pfizer's Juniper

“ *communis aurea* (Golden common Juniper) D.
 An attractive form of the preceding with bright yellow foliage.

12 to 18 in. across 2.00

“ *communis hibernica* (Irish Juniper) M.
 Columnar in growth. Branches upright and leaves light green. A very useful and handsome small tree.

		Each	Per 10
12 to 18 in.		1.50	10.00
18 to 24 in.		1.75	15.75
2 to 3 ft.		2.50	22.50
3 to 4 ft.		3.50	31.50

(Note: To protect against the Bag worm which attacks all varieties of *Juniperus communis*, spray or dust with arsenate of lead, preferably about June 1st.)

Juniperus communis suecica (Swedish Juniper) M.

Somewhat resembling the preceding, but more bushy in growth.

2 to 3 ft.		2.50
------------	--	------

" <i>exelsa</i> var. <i>stricta</i> (Greek Juniper)		
---	--	--

Steel blue. Conical and compact in habit.

15 to 18 in.		2.00
--------------	--	------

" <i>japonica</i> (Japanese Juniper) D.		
---	--	--

A low dense shrub with spreading, sometimes procumbent branches. Foliage deep green. A most beautiful dwarf shrub.

12 to 18 in.		3.00
--------------	--	------

" <i>pfitzeriana</i> (Pfitzer's Juniper) M. D.		
--	--	--

Branches spreading horizontally. Foliage grayish green. One of the most useful of the dwarfer Junipers.

1 to 1½ ft. across		2.00	18.00
1½ to 2 ft. across		2.75	25.00
2 to 2½ ft. across		3.50	

" <i>rigida</i> . (Needle Juniper). M.		
--	--	--

Light or bluish green foliage. Broad columnar in growth. Tips of branches slightly pendulous. Very hardy.

18 to 24 in.		1.75	15.75
2 to 3 ft.		2.50	22.50

" <i>sabina</i> (Savin) D.		
----------------------------	--	--

A very attractive low evergreen with dark green foliage and spreading branches. Very effective in group planting and good for covering banks.

10 to 12 in. across		1.75	16.50
12 to 15 in. across		2.00	18.00
15 to 18 in. across		2.50	22.50

" <i>sabina tamariscifolia</i> (T a m a r i x		
---	--	--

Savin) V. D.

Foliage fine and of brighter green than the type. Very procumbent Good among rocks.

12 to 18 in.		2.50
--------------	--	------

" <i>sabina horizontalis douglasii</i> . (Hill's Waukegan Juniper) V. D.		
--	--	--

Excellent for planting in rockeries or under large shrubs or trees. Foliage fine and soft blue in color, grows close together making a dense mat.

18 to 24 in.		2.00	\$18.00
--------------	--	------	---------

NEW ENGLAND NURSERIES CO.

		Each	Per 10
<i>Juniperus virginiana</i> (Red Cedar) T.			
A beautiful native evergreen. Generally conical in growth, with upright branches and dark or bluish-green foliage. Mature specimens are especially handsome when covered with their amethyst blue fruits. While naturally a medium tall growing tree, it can easily be kept low by pruning.			
2 to 3 ft.	2.00	18.00	
3 to 4 ft.	2.75	24.75	
4 to 5 ft.	4.00	36.00	
<i>Picea canadensis</i> or <i>P. Alba</i> (White Spruce) T.			
Pyramidal and dense in growth. Foliage silvery. A very ornamental tree.			
18 to 24 in.	1.50		
2 to 3 ft.	2.50		
" <i>glauca conica</i> (Dwarf Alberta Spruce) V. D.			
A very dwarf, dense and conical form of the Alberta Spruce. Light green in color. Very attractive.			
10 to 12 in.	6.00		

Norway Spruce

" <i>excelsa</i> (Norway Spruce) T.			
One of the most useful of the taller growing evergreens. Dark green and fast in growth. Fine for wind breaks or making hedges. While naturally a tall growing tree, it can readily be kept low by pruning, and may well be planted among the more dwarf evergreens as it responds well to clipping or shearing.			
15 to 18 in.	1.25	12.00	
(Per 100, \$100.00)			
1 1/2 to 2 ft. (Per 100, \$125.00)	2.00	18.00	
2 to 3 ft.	2.50	22.50	
3 to 4 ft.	4.00		

		Each	Per 10
Picea excelsa maxwelli (Maxwell Spruce)			
V. D.			
Flat, low and dense in growth.			
8 in.		2.50	
" excelsa pumila (Dwarf Norway Spruce) V. D.			
Dense and irregular in growth.			
Very good among other low evergreens.			
8 in.		2.50	
" pungens (Colorado Blue Spruce)			
T.			
An attractive ornamental tree and particularly good for lawn planting. Foliage rigid, blue-green to silvery white.			
10 to 12 in.		2.50	22.50
2 ft.		5.00	45.00
3 ft.		6.50	60.00
4 ft.		8.00	
" " Kosteri (Koster Blue Spruce)			
The most blue of all Spruces. We offer grafted specimens, 20 to 24 inches high, \$12.00 each.			
" pungens glauca (Specially selected Blue Spruce) T.			
10 to 12 in.		4.00	
2 ft.		7.00	
3 ft.		10.00	
Pinus austriaca or P. nigra (Austrian Pine) T.			
A handsome tree with long dark green foliage.			
18 to 24 in.		2.00	
" montana (Mountain Pine) M.			
Variable in habit, but usually low and bushy in growth. Good for massing where an irregular effect is desired. Foliage a fine light green.			
15 to 18 in.		2.00	
18 to 24 in.		2.50	

Dwarf Mountain or
Mugho Pine

Douglas Fir

" montana mugus (Dwarf Mugho Pine) M.

NEW ENGLAND NURSERIES CO.

		Each	Per 10
	A beautiful evergreen. Very hardy and good for massing or foundation planting. The foliage is unusually good dark green. Bushy in growth. It can be kept very low and dense by "diss-budding" or removing the terminal buds in the Spring.		
	12 to 15 in. spread.....	2.00	18.00
	15 to 18 in. spread.....	2.50	22.50
	18 to 24 in. spread.....	3.00	27.00
Pinus resinosa (Red Pine) T.			
	One of the most handsome of the tall growing Pines. Vigorous in growth. Leaves long and dark green.		
	12 to 18 in.	1.50	13.50
	2 to 3 ft.	2.50	
	3 to 4 ft.	3.50	
.. sylvestris (Scotch Pine) T.			
	Spreading in growth. Foliage blue-green, rigid and twisted.		
	18 to 24 in.	1.50	13.50
	2 to 3 ft.	2.00	18.00
	3 to 4 ft.	3.50	

White Pine

.. strobos (White Pine) T.

Very picturesque when old, and well adapted for large grounds. One of our finest native evergreen trees with blue-green and sweet scented foliage. Government embargo prevents shipments of five needled Pines to many points outside of Massachusetts.

18 to 24 in.	1.50	13.50
2 to 3 ft.	2.00	18.00
4 ft.	3.00	

<i>Pseudotsuga douglasii</i> (Douglas Fir) T.	Each	Per 10
A pyramidal growing tree with soft dark green or bluish foliage. Can be kept low by shearing.		
1½ to 2 ft.	2.00	18.00
2 to 3 ft.	2.75	
3 to 4 ft.	3.50	
4 to 6 ft.	7.00	
<i>Retinospora.</i> See <i>Chamaecyparis</i> .		
<i>Taxus canadensis</i> (Canada Yew) V. D.		
A low spreading shrub with dark green foliage. Good for banks and under trees. Prefers a moist soil. Fruit crimson and very ornamental in winter.		
12 to 15 in. spread	2.00	18.00
15 to 18 in. spread	2.50	22.50
" <i>cuspidata</i> (Japanese Yew) M.		
Spreading and irregular in growth. Foliage coarse and glossy green. Very hardy and excellent in masses with other dwarf evergreens.		
15 to 18 in. spread	4.00	
18 to 24 in. spread	5.00	
<i>Taxus cuspidata nana</i> (Dwarf Japanese Yew) V. D.		
A very compact and dwarfer form of the preceding. One of the best low growing evergreens.		
6 to 9 in.	2.00	18.00

Pyramidal Arbor Vitae

American Arbor Vitae

Thuja occidentalis (American Arbor Vitae) M.

Used extensively in making dense screens and hedges. Foliage light green above and yellowish underneath. A specimen grown singly

NEW ENGLAND NURSERIES CO.

		Each	Per 10
	makes a narrow, pyramidal tree, somewhat open, but if pruned it can be made very dense and kept low.		
1	to 1½ ft. (Per 100, \$75.00)	1.00	8.00
1½ to 2	ft. (Per 100, \$100.00)	1.50	13.50
2 to 3	ft.	2.00	18.00
4	ft.	3.00	27.00
5	ft.	5.00	
Thuja occidentalis alba (Queen Victoria Arbor Vitae) M.			
	Leaves variegated with white. Quite open in growth while young, but if pruned it becomes very dense.		
18 to 24	in.	2.00	18.00
2 to 3	ft.	3.00	27.00
" pyramidalis douglasii (Douglas Pyramidal Arbor Vitae) M.			
	A slender pyramid with deep green, fern like foliage. Very hardy.		
18 to 24	in.	2.50	
2½ to 3	ft.	3.00	
" occidentalis lutea (George Peabody's Arbor Vitae) M.			
	A pyramidal form with bright golden foliage.		
1½ to 2	ft.	3.00	
" occidentalis globosa (Globe Arbor Vitae) D.			
	A fine dwarf and globose evergreen with slender branches and bright green foliage.		
10 in. across	1.25	11.25
12 in. across	1.50	13.50

Hovey's Arbor Vitae

Woodward's Globe Arbor Vitae

" **occidentalis hoveyi** (Hovey's Arbor Vitae) D.
A dense globose form with upright branches and bright green foliage. One of the most useful evergreens for massing. Excellent also in out-door window boxes.

		Each	Per 10
10 to 15 in.	(Per 100, \$100.00)	1.50	13.50
15 to 18 in.	(Per 100, \$125.00)	1.75	15.75
18 to 24 in.		2.00	18.00

Thuja occidentalis plicata elegantissima

(Lees Arbor Vitae) M.

A dense, pyramidal tree with upright branches. Foliage brownish dark green above, and bluish green beneath. Young growth is slightly variegated with yellowish brown. Extremely hardy and very beautiful.

12 to 18 in.	2.00	18.00
18 to 24 in.	2.50	22.50
3 ft.	3.50	

" *occidentalis pyramidalis* (Pyramidal Arbor Vitae) M.

A narrow pyramidal, though frequently columnar tree, with dense and light green foliage. Indispensable in foundation planting and useful in all group planting of dwarf evergreens.

1 1/2 to 2 ft.	1.75	15.75
2 1/2 ft.	2.50	22.50
3 ft.	3.00	27.00
4 ft.	4.50	

**Hemlock****Siberian Arbor Vitae****" *occidentalis wareana* (Siberian or Ware's Arbor Vitae) M. D.**

15 to 18 in.	2.00	18.00
18 to 24 in.	2.50	22.50

" *occidentalis woodwardi* (Woodward's Globe Arbor Vitae) D.

A globular and dense, dark green and low evergreen. Extremely hardy and very useful among other low evergreens.

15 to 18 in.	1.75	15.75
--------------	------	-------

" *occidentalis tom thumb* or *T. ellwangeriana* (Tom Thumb Arbor Vitae) D.

A dense, low and broad pyramid, with the typical foliage of the

NEW ENGLAND NURSERIES CO.

Each Per 10

Arbor Vitae mixed with foliage resembling that of *Chamaecyparis squarosa*. Prefers a sheltered position.

12 in.	1.75	16.50
18 in.	2.50	22.50

Thuja occidentalis vervaeneana (Vervae's golden variegated Arbor Vitae) D.

Very hardy and useful. Dwarf and dense in habit. Branches slender. Foliage variegated with yellow. Beautiful as a sheared specimen.

12 in. (Per 100, \$75.00)....	1.50	13.50
18 in. (Per 100, \$100.00)....	2.00	18.00
2 to 3 ft.	2.75	24.75

Tsuga canadensis (Canada Hemlock) T.

A native graceful evergreen tree with yew-like foliage. It is rather open in growth, but by pruning it can be made very dense and kept low. Good for hedges. It is shade-enduring, therefore excellent for screens under trees or for other undergrowth planting.

12 to 18 in.	1.75	15.75
24 in.	2.50	22.50
30 in.	3.00	27.00
3 ft.	3.50	31.50
4 ft.	5.00	45.00

HARDY EVERGREENS FOR WINDOW-BOXES, PLANT-TUBS OR POTS

A 4 ft. window box containing 3 Hovey's Arbor Vitae and 2 Irish Junipers

Evergreens grown in out-door window boxes or in pots or urns, are being used more and more for winter decorations. If properly watered, they may serve for several years. In the Spring they can be set out in the garden to make room for Summer flowering plants like

Geraniums, Petunias, etc. Many varieties lend themselves well to this use, but the following are especially to be recommended.

Dwarf Mugho
Pines
Pyramidal Arbor
Vitae
Woodward's Globe
Arbor Vitae
Irish Junipers
Savin Junipers
Pfitzer's Junipers
Norway Spruces
Hovey's Arbor Vitae

For prices, see General Price List

A 12 inch Urn containing a
2½ ft. Pyramidal Arbor Vitae

HARDY EVERGREEN PLANTS

Evergreen shrubs like Evergreen Trees, transplant well in the Spring as soon as the ground is open, and generally as late as June 1st. Also during the period beginning August 1st, and continuing until the ground becomes frozen.

Andromeda polifolia (Bog Rosemary or Moorwort) D.

Leaves narrow, glaucous, silvery white beneath. Waxy white and urn-shaped flowers in clusters. An interesting native shrub.

8 to 12 in. \$1.50

(See also Pieris).

Berberis aquifolia (See Mahonia).

Calluna Vulgaris (Scotch Heather) V. D.

Small pink flowers in dense racemes. Good for rockeries or dry banks

.50

" **vulgaris alba** (White Heather) V. D.50 4.50

" **vulgaris aurea** (Golden Heather) V. D.50 4.50

" **vulgaris nana** (Moss Heather) V. D.50 4.50

Daphne cneorum (Garland Flower or Rose Daphne) V. D.

Pink fragrant flowers resembling Mayflowers or Trailing Arbutus. Trailing in habit. Good in front of shrubs or in the rock garden.

Two years old75 \$6.75

Daphne Cneorum

Each Per 10

Euonymus radicans (Wintercreeper).

A spreading evergreen vine or low clinging shrub which can be used for covering tree trunks, rocks, or brick walls. Also good for planting under Rhododendrons or other shrubs to cover ground.

	Two years old50	4.50
"	carrieri (Glossy Wintercreeper)		
"	Two years old50	4.50
"	colorata		
	A new fast growing variety with bronze foliage during the winter		
"	Two years old50	4.50
"	radicans variegata (Variegated Euonymus).		
	A white and green leaved variety of the preceding.		
"	Two years old75	6.75
"	radicans vegetus (Big leaf Wintercreeper).		
	Leaves larger than those of the E. radicans. Very hardy and comparatively fast in growth.		
"	Two years old50	4.50

Hedera helix (English Ivy)

A pretty evergreen vine, and good for shady and sheltered places, 2 years old

.50 4.50

Kalmia latifolia (Mountain Laurel) M.

A beautiful native evergreen shrub with lovely pink and white flowers in May.

15 to 18 in. (bushy) 2.50 22.50

Leucothoe catesbeiae (Drooping Leucothoe) D.

Large, glossy green leaves on gracefully arching branches. Spikes of flowers resemble Lily-of-the-Valley. Good with Rhododendrons or in front of deciduous shrubs.

2 ft. \$2.00

		Each	Per 10
<i>Mahonia aquifolium</i> (Oregon Hollygrape or Ashberry) M.	10 to 12 in.	1.00	9.00
<i>Pachysandra terminalis</i> (Japanese Spurge) V. D.	A dwarf evergreen of mat like growth. Good for ground cover under shrubs or trees. Foliage shining green. Set plants 8 to 12 inches apart to form a good car- pet (Per 100, \$15.00)	.25	\$2.00
<i>Pieris floribunda</i> (Mountain Andromeda or Andromeda floribunda)	A strikingly handsome, low ever- green shrub with masses of Lily- of-the-Valley like flowers in May or June. Very hardy and good among other low evergreens.		
	Bushy plants, 12 inches	2.00	

Rhododendron

RHODODENDRON catawbiense (Catawba Rhododendron)

Flowers orchid colored and pro-
duced in large showy clusters.
Foliage is large and of a good
glossy green color. Very hardy
and one of the best Rhododen-
drons for general purposes.
When planting, set plants rather
deeply, and mix with the soil a
few leaves or a small quantity of
leaf mold or peat.

18 to 24 in.	3.00	27.00
2 to 3 ft.	4.00	36.00

Rhododendron maximum (Rosebay Rhododendron)

White or pink-tinged flowers.
Large handsome foliage. Fine
for massing.

2 to 3 ft. Bushy	4.00	36.00
3 to 4 ft. Bushy	5.50	50.00

Yucca filamentosa (Adams needle).

An evergreen plant of tropical
appearance. Foliage sword-like
and flowers pure white and bell
shaped. 2 yrs. old

.35 3.00

GARDEN ROSES

The Rose is deservedly called the "Queen of Flowers," and every garden lover should own a rose-bed.

Our dormant, two years old plants, which are practically all on "their own roots," will flower freely even the first summer after planting.

As a flower
the Rose is
truly
"Fairest
Among
Thousands,
Altogether
Lovely."

Cultural Directions for Roses

While roses can be grown in almost any kind of soil, they prefer that it be deep, moderately rich and well drained. Roses require a fair amount of sunlight, but prefer not to be too near buildings or tall trees, for in such places they are more susceptible to attacks from mildew.

Field grown plants, such as we offer, are best when planted in early spring, but with care, they may be planted in the fall as soon as they have become dormant. Distances apart for planting roses are regulated somewhat by the varieties used. Such varieties as Moss Roses, and other strong growing kinds may be set two or three feet apart, Hybrid Perpetuals about two feet apart, and Hybrid Teas from one and one-half to two feet apart.

The plants should be set so deeply that at least 3 or 4 inches of the lower branches are below the surface of the soil. In fact, deep planting is one of the most essential things in successful rose culture. After setting the plant in position, the earth should be firmly pressed in around it. While the plants are out of the ground, keep them from wind and sun. After the plants have been set out, they should be pruned immediately, and cut down to within three or four inches of the ground.

To obtain the most and best flowers, and in order to keep the plants attractive, it is necessary that **ever-blooming varieties** should be cut back to within a few inches of the ground each Spring. Moss Roses and

such other varieties which bloom only in the Spring, should be pruned immediately after flowering. During the Summer, an occasional watering with liquid manure will prove beneficial. In late fall when the plants are well ripened, some protection should be given, and while loam heaped up around the plants furnishes the best protection, leaves, hay or straw to the depth of from eight to ten inches may be used for covering.

VISIT OUR ROSE GARDEN

We maintain on our grounds at Bedford, a Rose-Garden containing all of the most satisfactory, everblooming garden Roses. Plants may there be seen in bloom from frost to frost, and lovers of roses are cordially invited to visit the garden.

HYBRID PERPETUAL ROSES

Strong, Dormant and Field-Grown Plants

Price: Each 75c; per ten \$7.00; per hundred \$65.00 except where otherwise noted.

The following named Hybrid Perpetual Roses can be relied upon for hardiness.

If planted in good soil, set in the ground to the proper depth, and pruned back as directed, they will produce quantities of bloom the first season. **Deep planting and close pruning is very essential.**

American Beauty. Very large blooms. Deep pink to soft carmine, with delicate veins of dark red on the petals.

Frau Karl Druschki (Snow Queen). Flowers very large, beautiful, pure white.

General Jacqueminot. Brilliant crimson; not full, but large and extremely effective.

Geo. Arends. Soft pink. Very fragrant. Strong grower.

Mrs. John Laing. Soft pink; fragrant; blooms late in Autumn.

M. P. Wilder. Cherry carmine.

Paul Neyron. Deep rose, very large.

Ulrich Brunner. Cherry-red. A fine rose.

HYBRID TEA ROSES

The following list contains only the hardiest varieties. If given a slight protection in Winter, they can be successfully grown anywhere in New England. Price: Each \$1.00; per 10 \$9.00, except where otherwise noted.

Caroline Testout. Large, double, clear bright rose.

Columbia. Beautiful pink and very free.

Duchess of Wellington. Saffron yellow. Very free and sweet.

Etoile de Hollande. Vivid crimson flowers produced freely throughout the season.

Gruss an Teplitz. Dark red. Very free flowering and hardy.

Jonkheer J. L. Mock. One of the most popular Roses.

It is vigorous and sends up strong, erect, flowering shoots; the flowers are of perfect form, of a lovely carmine colour on outside petals, silvery pink on inside; highly fragrant.

NEW ENGLAND NURSERIES CO.

Juliet. Old Gold, shaded with Deep Rose.

K. A. Victoria. Delicate Creamy-white, free flowering; quite hardy.

Killarney. Pink.

Killarney. White. Considered by many one of the best White garden Roses.

La France. Silvery-rose, changing to Pink.

Lady Margaret Stewart. Buds golden orange, shaded with copper. Large flowers golden yellow when open. One of the best new roses.

Lady Ursula. Flesh pink, merging to a yellow base. Free bloomer.

Laurent Carle. Large, brilliant carmine, flowers throughout the season.

Los Angeles. New. Vigorous and free. Flame pink, shaded with gold at base.

Miss Lolita Armour. The coloring of this variety is a combination of tints difficult to describe. The flowers are of large size, full double, of a deep, coral-red with a golden, coppery-red suffusion, a strong, vigorous grower and very free-flowering.

Mme. Butterfly. One of the best. Flowers flesh pink shaded to rose. Fragrant and of good shape. Vigorous.

Mme. Edouard Herriot (Daily Mail). Winner of the Gold Cup which was offered by the "Daily Mail" of London for the best new Rose exhibited at the International Horticultural Exhibition held in London. Colour in bud form coral-red with yellow at the base, while the semi-double open flowers are of a superb coral-red shaded with yellow and bright rosy-scarlet passing to shrimp-red.

Mrs. Aaron Ward. Of French introduction. The colour is a distinct shade of Indian-yellow, which, as the flower expands, shades lighter towards the edges, making a splendid colour combination. One of the freest-flowering varieties.

Ophelia. Brilliant salmon-flesh shaded with rose on outer edges of petals, with a heart of glowing peach-pink and orange, yellow blendings, all passing finally to lighter shades;

Padre. Most attractive and novel in coloring, with long petals of a coppery scarlet flushed with yellow at the base. Growth strong and upright and exceedingly free-flowering. A remarkably beautiful Rose.

President Hoover. New and exceptionally good. Buds are long and pointed. Flowers large and sweet scented. Color a combination of cerise-pink, flame, scarlet and yellow. Each \$2.00.

Radiance. Brilliant rosy-carmine, shaded with rich opaline-pink tints in the open flower, which is large, full, of fine form, with cupped petals. Upright canes and an excellent keeper in summer.

Red Radiance. A bright, cheerful and even shade of pure red; size, foliage, growth and habit same as in the parent "Radiance."

Souvenir de Claudius Pernet. The best yellow Rose yet produced. A lovely sunflower-yellow deepening in the centre.

Talisman. A Rose possessing all possible good qualities. Strong grower. Blooms freely. Inside of petals coral red, outside golden yellow shading to pink at edges. Each \$1.50.

Rosa Hugonis (Golden Rose of China). New hardy single yellow rose, similar to the Persian Yellow. Strong growing shrub. Flowers are very numerous along the stems; distinctly fragrant. Comes into flower about the middle of May.

Willowmere. Buds coral red. Deep pink, shaded yellow when open. Strong grower and free flowering.

CLIMBING AND RAMBLER ROSES

Plant very deeply, and regardless of length of branches, prune back at once after planting to within 5 or 6 inches of the ground.

	Each	Per 10
American Pillar. Rich rosy pink.....	\$.75	\$6.50
Climbing American Beauty. Red flowers like bush-rose of same name.....	.75	6.50
Christine Wright. Bright pink.....	.75	6.50
Crimson Rambler. Bright Crimson flowers in large clusters75	6.50
Dorothy Perkins. Shell-pink and sweet scented. Very vigorous (Per 100 \$60.00)	.75	6.50
Doctor W. van Fleet. Rich flesh pink. Exquisitely shaped buds75	6.50
Emily Gray. The hardiest and best climbing yellow Rose yet introduced.....	.75	
Exelsa. Much like Dorothy Perkins, but with deep Red flowers75	6.50
Hiawatha. Crimson and White. A beautiful variety. Semi-double75	6.50
Mary Wallace. Flowers semi-double and very large. Clear rose-pink with salmon base75	6.50
Paul's Scarlet Climber. A vigorous grower with fine glossy foliage, and vivid scarlet blossoms about two inches across75	6.50
Silver Moon. Clear silvery white with yellow stamens. Cup-shaped, large and fragrant. A vigorous grower and free bloomer75	6.50
Tausendschon. Soft pink. Large, double flowers75	6.50
White Dorothy Perkins. White75	6.50

DWARF BEDDING ROSES OR BABY RAMBLERS

Baby Chatillon. In growth like the Baby Echo, but superior in every way. Flowers silvery-crimson and very free

.75 6.50

ROSA RUGOSA HYBRIDS

Conrad Ferdinand Meyer. Pure, silvery-pink, surpassing all others of the Rugosa family in beauty of colour and fullness of form; fragrant and hardy. Each \$1.00.

NEW ENGLAND NURSERIES CO.

TREE-SHAPED ROSES

We offer the following assortment of "Standard Roses." Stems 3 to 4 ft. high, and well developed heads. Price \$3.00 each.

Frau Karl Drushky.
Lady Ursula.
Gruss an Teplitz.
Los Angeles.
Mme. Butterfly.
Mme. Edouard Herriot.
Ophelia.
Radiance, Red.
Souv. du Claudius Pernet.
Pink Radiance.

FRUIT TREES AND SMALL FRUITS

Apples

Standard Apples, 2 years, 5 to 7 feet high.

Price: Except where otherwise noted, each, \$1.00; per 10, \$7.50; per 100, \$60.00

Astrachan. Sept. 1st.

Fameuse or Snow. Oct. 1st.

Gravenstein. Sept. 15th.

Baldwin. Late.

Delicious (Red). Late.

Hubbardston. Sept. 15th.

McIntosh Red. Oct. 1st.

Northern Spy. Late.

Wealthy. Sept. 15th.

Dwarf Apples (on Paradise Stock)

One and two years old. Each, \$1.00

Baldwin

Fameuse or Snow

McIntosh

Red Astrachan

Gravenstein

Crab Apples

Hyslop (Red). Each \$1.00; per 10, \$7.50.

Standard Pears

2 years old. Each \$1.00; per 10, \$8.50, except where noted.

Bartlett

Bosc or Beurre Bosc. Each

Clapp's Favorite

\$1.25

Seckel

Sheldon

Dwarf Pears

The following varieties we can supply on Dwarf or Quince stock:

Price: Each \$1.00

Anjou. 2 to 3 feet high.
Bartlett. 2 to 3 feet high.
Seckel. 2 to 3 feet high.

SWEET CHERRIES

Price \$1.25 each.

Black Tartarian. Vigorous growth; very large; purplish black; one of the best. Ripening end of June.

Governor Wood. Vigorous growth; medium; clear, light red; tender, delicious. Ripening end of June.

Yellow Spanish. Vigorous growth; large; pale yellow with red cheek; firm, juicy and delicious; very good. Ripening end of June.

Windsor. Large, liver colored. Vigorous.

Morello or Sour Cherries

Early Richmond. Medium size; dark red; juicy, rich acid flavor. The stone adheres to the stem. One of the most valuable of Sour Cherries.

Montmorency (Large Montmorency). A Cherry of the Richmond class, but larger and more solid.

Pruning of Cherry Trees

Cherry trees are difficult to establish and must be cut back severely at once after being transplanted. Cut back all branches to within 3 to 5 inches of the stem.

Plums

2 years old. Each, \$1.00. Per 10, \$7.50.

Abundance (Bhotan). Beautiful lemon-yellow with bright cherry. Has been thoroughly tested, and is highly recommended. August.

Burbank. Large and beautiful, a clear cherry red, with a thin lilac bloom; flesh a deep yellow, very sweet, with a peculiar and very agreeable flavor. Ripens later than Abundance. End of August.

October Purple. Large, round fruit; dark, reddish purple yellow; flesh of most superb quality. Ripens middle of September.

German Prune. (Blue, large and sweet).

Reine Claude. An old favorite.

PEACHES

Each \$.75. Per 10, \$6.00

Belle of Georgia. Very large, skin white with red cheek; flesh white, firm, and of excellent flavor; fruit uniformly large and showy; free. Very hardy and one of the latest to ripen.

Carman. A new, hardy, rot-proof Peach. Large, round; pale yellow skin and red blush, on sunny side; white flesh, sweet flavor. Ripens in August.

Champion. Large, white with red cheek. Ripens about August 1st.

Crawford's Early. Very large; yellow; juicy, melting; freestone. Ripening early September.

Crawford's Late. Very large; yellow; juicy; good; free-stone. Ripening end of September.

NEW ENGLAND NURSERIES CO.

Elberta. An exceedingly large, light-colored yellow peach, a cross between Crawford's and Chinese Cling; juicy, well flavored; said to be probably the finest yellow freestone in existence. Ripens early in August.

Fitzgerald. A chance seedling, found in Ontario, outside of the Peach belt, where it has produced regular crops. The fruit is of very large size, pit very small. This promising new peach is of the Crawford type, but excels that famous variety in size, hardiness and productiveness. Season same as Early Crawford.

Greensboro. Large and well colored. Freestone. Ripens August 1st.

J. H. Hale. Ripens about a week earlier than Elberta. Very large. Flesh golden yellow.

Quinces

First class. 2 years old. Each, \$1.00

Orange. Large, roundish, bright golden yellow; cooks quite tender, and is of very excellent flavor. Oct.

HARDY GRAPES

Each, 50 cents. Per 10, \$4.50. Per 100, \$35.00.

Black

Concord. Bunch and berry large, round, black, thickly covered with a beautiful bloom; flesh moderately juicy, sweet pulp, quite tender when fully ripe.

Moore's Early. Bunch and berry large, with a blue bloom; quality better than Concord; its size and earliness render it desirable.

Worden. Bunches large, handsome; berries sweet. Ten days earlier than Concord and superior to it in flavor; ripens well and in cold localities.

Red and Reddish Purple

Delaware. Medium or small, but delicious; highly esteemed everywhere.

White

Niagara. Bunch medium to large; berry large; skin thin but tough, slightly pulpy, tender, sweet, vine vigorous, healthy, and very productive; ripens with Concord. All things considered, probably the most valuable white Grape in cultivation.

SMALL FRUITS

Blackberries

Strong plants: Per 10, \$1.50. 100, \$8.00

Erie. Fruit very large, excellent quality. There is no berry that rivals it in combining hardiness, large size, earliness and productiveness.

Raspberries

Price, except where noted: Per 10, \$1.50. 100, \$8.00

Cuthbert (Queen of the Market). Large dark crimson berries

Columbia. Fruit purple. Vigorous in growth.

Latham. A new red Raspberry. Very hardy and extremely productive.

CURRANTS

Gooseberries

Note: In accordance with the wishes of the State Department of Agriculture, we have discontinued growing and selling currants and gooseberries as they are host plants to the white pine blister rust.

Asparagus

Giant Rust-Proof. (Best of all). 2 years. Per 100, \$2.00; per 1000, \$15.00.

Rhubarb

Champagne. A choice English variety. Two years old. Each 50 cents; per 10, \$4.50.

Note: At the prices given in this list we will guarantee to furnish strictly first-class stock of the size and ages named, but as our prices are low, and it is impossible for us to guarantee the life of a plant after it leaves our hands, we cannot replace free any stock which may fail to grow. If a guarantee for one year is desired, add 20 per cent to the list price.

SPECIAL RECLEANED LAWN GRASS SEED

For many years this Lawn Grass Seed has been found to be absolutely satisfactory. 1 lb. \$65; 100 lbs. \$60.00.

PREPARED POTTING SOIL

Containing leaf mold, peat, decayed manure, wood ashes, etc. Good for practically all house plants and winter flowering bulbs. Per peck \$.50; per bushel \$1.00.

HIGH GRADE WINTER AND SPRING
FLOWERING BULBS

We can supply during September, October and November, Tulips, Hyacinths, Crocus, Daffodils, Snowdrops, Scilla, etc. Price list on application.

VIGORO
Specially prepared plant food

A well balanced, safe and effective fertilizer for lawns and use in general planting.

Price per 100 lb. bag.....	\$ 6.00
Price per 50 lb. bag.....	3.25
Price per 25 lb. bag.....	1.75
Full directions with each package	

TWO-IN-ONE (Peat-Poultry Manure)

Perfectly blended, air dried, and practically odorless. The moisture-retaining and humus-forming qualities of Peat combined with the finest natural fertilizer make Two-In-One unsurpassed for gardens, lawns, golf greens, etc. Price: 5 lbs. \$.60; 25 lbs. \$1.75; 100 lbs. \$3.50.

IMPORTED PEAT MOSS (Ground Peat)

Unexcelled for horticultural work. Loosens heavy soil; enriches and binds light soil; retains moisture. One bale will cover 240 square feet one inch deep.

NEW ENGLAND NURSERIES CO.

Price 1 Bale, \$3.50; 10 Bales, \$27.50; 20 Bales, \$50.

1 Cardboard carton of finely ground and tightly compressed Peat Moss ready for use, \$1.25.

STEPPING STONES

We are in a position to supply natural, flat, weathered stones for garden paths, etc. Prices on application.

MEMORANDUM

¶ We confidently recommend to
planters the use of our stock

Because:

1. Bedford Grown Trees and Plants are produced under severe climatic conditions and are of undisputed hardiness.
2. Bedford Grown Stock is distributed directly from our Nurseries.
3. Our type of soil, plus frequent transplanting or root-pruning, produces an exceptionally good root system for our plants.
4. Our long experience enables us, and our first aim in business is, to produce and deliver high grade stock.
5. While we consider, that our prices represent a fair value for such stock as we endeavor to supply, we realize that quality is remembered long after the price is forgotten.

The New England Nurseries

Bedford, Massachusetts
